

Xltec Recruitment Ltd

FM & Engineering

Division

Company Profile

Xltec Recruitment was created with the aim of offering both employers and candidates a service that provides value for money and a successful outcome. Unlike the vast majority of agencies out there, Xltec Recruitment are determined to address our clients' recruitment needs from their perspective.

Therefore we won't look to charge exorbitant fees, bombard you with blanket emails and advertising material, pressurize or push you for a decision, harass you with constant calls, or engage in any of the other activities that you have come to dislike. Instead, we will tailor our recruitment service to your individual requirements, whatever they may be.

Xltec's experienced consultants have been successfully recruiting in a variety of specialist sectors for years. The fact of the matter is that all of our Senior Consultants have a minimum of five years experience in recruitment.

We are so confident in the service that we provide to our clients that, unlike our competitors, we are prepared to offer you a free replacement for any candidate who leaves your company within six months of their start date.
