

Xitec
RECRUITMENT LTD

Marine
Division

Marine

Xltec Recruitment was built on the aim of offering both employers and candidates a service that provides value for money and a successful outcome. Unlike the vast major of agencies out there, Xltec Recruitment are determined to address our clients' recruitment needs from their perspectives.

We pride ourselves in tailoring our recruitment services to your individual requirements, whatever they may be.

Xltec's experienced consultants have been successfully recruiting in the Marine sector for a number of years and they have an excellent reputation in the market for finding qualified, highly skilled and competent personnel and ensuring that they find roles that suit them. Candidates are always referenced; certificates and IDs are checked as well as being fully-briefed about any role to which they are being sent.

We always have, and always will, focus on providing staff both on and offshore on a temporary or permanent basis; from AB to Engineer, DPO to Master Mariner. We also provide Marine and Technical Superintendents, HR and other operational people. A list of some of the key positions we fill is on the next page.

Contract and Temporary Candidates

Our temporary and contract section is growing quickly, and we have a strong record in delivering the same skillsets on a short or long term basis.

We hold all of the required insurances for placing temporary people anywhere in the world, and we are happy to prove this by sending you our certificates.

As REC Members, we adhere to the highest professional standards, and all of our candidates are held to the same level of quality.

We ensure candidates are paid a fair rate, and that they are paid on time, because we know that happy employees stay on contracts.

This service allows you to have a more flexible workforce which can handle short term absence, as well as peaks in project work without having to retrain other candidates or increase headcount.
